👤 SUMMARY

Senior Full-Stack Developer and Technical Lead with 20+ years driving success across startups and agencies. Delivered 100+ WordPress, Php\Laravel, and React\Node.js projects for international clients. Technical expertise spans Laravel, Headless CMS integration, API development, and DevOps (Linux, server management, performance optimization) with AI and automation experience. Proven track record of solving complex technical challenges. Seeking roles where I can leverage deep technical knowledge to solve complex business problems and mentor junior teams.
